

AQUA DIAMOND

The GSE Diamond® High Frequency Charger is based on High Frequency IGBT technologies, featuring a perfect combination of very high efficiency, high power factor (PFC), universal capabilities and precise charge control. Built to withstand harsh environmental conditions, the GSE Diamond® IGBT Series will deliver the maximum power output to service the most demanding GSE applications for cargo and aircraft tugs, tow tractors, baggage tractors, belt loaders and other electric ground support equipment.

Features:

- Environmental Protection from the elements NEMA3R/IP54 Cabinet
- High Frequency IGBT Technologies
- Universal capabilities and precise charge control
- Perfectly filtered output current. 100% constant current.
- Very low output ripple at <2%
- Very high efficiency (>90% average, >95% peak)
- Near unity power factor (>0.95)
- Multi-Voltage, Multi-Capacity, Multi-Chemistry, Lithium Optional
- California Energy Commission compliant option available
- Charging curve is programmable with any type of battery
- Short circuit and overload protection
- Heavy duty design, military-grade electronic parts
- Alphanumeric LCD diagnostics display
- Full technical support
- Outstanding warranty
- Available in Black, Green & Red Diamond

Charlotte, NC
877.914.8999

	80V max160*	TN				

*Max output current could be decreased when internal temperature exceed the max limit

Cabinet Size:

TN: 22.05" W x 25.98" D x 37" H

GECI AQUA Diamond™ Accessories

Battery Module Harness

Model Number: BMOD-R

- Temperature Sensor
- Water Level
- Current Sensor
- Voltage Meter

Pogo Stick per Cable Output

Model Number: 0303325-P

- Compatible with both stands (MN: 0303325-1 and 0303325-2)
